

Mastering Unix

Hands-on course of 5 days - 35h

Ref.: MUX - Price 2024: CHF3 070 (excl. taxes)

This intensive training has several goals: to allow you to reach a real knowledge of the system through pedagogical paths, both theoretical and using various labs on different versions of Unix (AIX, HP-UX, Solaris and Linux), to give you synthetic information useful for an everyday use of the system, and present a set of selected examples that show the system capabilities, and to underline some differences between versions of Unix.

PREREQUISITES

Learners should have general knowledge in computing.

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more. Participants also complete a placement test before and after the course to measure the skills they've developed.

TEACHING AIDS AND TECHNICAL RESOURCES

- The main teaching aids and instructional methods used in the training are audiovisual aids, documentation and course material, hands-on application exercises and corrected exercises for practical training courses, case studies and coverage of real cases for training seminars.
- At the end of each course or seminar, ORSYS provides participants with a course evaluation questionnaire that is analysed by our instructional teams.
- A check-in sheet for each half-day of attendance is provided at the end of the training, along with a course completion certificate if the trainee attended the entire session.

TERMS AND DEADLINES

Registration must be completed 24 hours before the start of the training.
